

# Zero Emission Vehicles (ZEV) Policy on Campus

Council review the proposed university development scheme and its formations for the upcoming years 2012-2027.

The main points, which are about Zero Emission Vehicles (ZEV) Policy on ATU Campus, are listed below ;

- 1- Purchasing ZEV vehicles to be used as free services inside the campus due to the large distances traveled by the all-campus populations.
2. Establishing more special markings that control and reduce the number of vehicles allowed to travel or park inside all ATU campuses and build new parking areas for students & staffs outside the campuses
3. Vehicles (buses and cars ) must parked outside the ATU main campus and its related sites as well as expanding planted and green areas inside ATU sites.
4. Specifying more stations for lending free bicycles for all populations inside the campus

Limiting the number of Car parking on the campus

Car parking outside the campus to reduce emission

Free Bus (Al-Furat Al-Awsat Technical University)

All the University sites are engaged with cyclists and pedestrians through a number of free services, courses (about the importance of Zero Emission Vehicles & conserving the environment ) and providing free bikes to staff & students.

1. Limiting parking to control on the space of parking
2. Free to rent bicycles on campus to reduce Emissions
3. Car parking outside the campus to reduce emission
4. Free Bus to reduce the number of cars in the university
